

This novel steps back to the beginning of last century and presents a message to readers that spans over the ages. Fortress of the Heart: the Story of Anna is a non-fiction novel that embraces the incredible journey of Anna Buchanan Coleman with such insight and clarity that the reader is sure to recognize her in a strong woman they know personally. Coleman-Wells reached with both hands into the colorful tapestry that her mother, Anna, called life. As a result Ms. Wells constructed a masterpiece. This book could have gone several directions as far as theme. Anna Buchanans life was chocked full of gender discrimination, racism, colorism, abuse, economic disadvantages, struggle for higher education being a minority....the list goes on. Instead of focusing on negative circumstances that Anna endured, Shirley Coleman Wells plucked the gold thread of her mothers life to immortalize in this book as Annas legacy...simply love. Out of bitter tears, loneliness, hurt, and abandonment sprang love that was well appreciated by Anna, like a cooling rain after a drought. This novel, although heart wrenching and tear jerking at several points, celebrates life. The proverbial calm after the storm is personified in the life of Anna as a result of her strength, faith, resolution and service to others. Fortress of the Heart could have spanned several categories including drama, suspense, horror, romance and educational. But undoubtedly, after the last page is read, the reader will surely agree there is only one category that does this book justice.....as a classic.
